## MERLOT 2020

PURE EXPRESSION OF THE GRAPE

As the years go by, until our youngest vineyards produce grapes with enough nobility to qualify as our iconic wines, we use these grapes to produce our Varietal range. With our Merlot, we invite you to discover the aromas and purest expressions of this emblematic Bordeaux varietal. We produce it with the same process and care as our Collection.

### Vintage Characteristics

The warm winter generated a generous and homogeneous, but too early budburst. In October, spring frosts affected some early shoots and produced a decrease in production. December and February were the rainy months in this overall very dry and warm season, with minimums, averages, and maximums higher than usual, especially in November and March. The entire summer has been hot, and the low relative humidity kept the vineyard in very good health, without cryptogamic disease. This allowed optimal phenolic maturity, concentration, and quality. Maturity happened very early and the harvest has been advanced by 2 weeks. The low-yield 2020 vintage is characterized by an extraordinary quality.
