Acidez: 5,35 g/L

Azúcar Residual: 1,8 g/L

pH: 3.8

Extracto Seco: 27,8 g/L

Producción: 14.300 Botellas.

Vintage Characteristics 2022

The 2021-2022 season was full of surprises with late spring frosts, frequent rains in March and April, and a thermal amplitude higher than usual. Nevertheless, the Uco Valley showed less damage than other areas of Mendoza, with no humidity problems or cryptogamic diseases.

These climatic inconstancies led to a harvest of outstanding quality, although we had a decrease in quantity compared to previous years.

Temperatures were above average during summer and the ripening period, and, with well-timed and intense rains prior harvest, gave extraordinary conditions for recovering a better yield and for a good phenolic maturing which turned this campaign into a great quality vintage.

Vineyards

Total area: 65 hectares.

Area in production: 55 hectares.

Altitude: 1000 meters above sea level.

Plantation density: 5.500 plants per hectare in vertical trellising system.

Yield: 7.000 kg per hectare.

Harvest: manual in 12 kg boxes.

Wine-Making

In accordance with our organic and biodynamic practices, our wines are fermented with indigenous yeasts. In this Cuvée Nature, early harvest, shorter maceration and without barrel aging and 30% carbonic maceration to achieve a natural, fruity and easy to drink wine. No added sulfites.

Tasting Note

Appearance: Violet red of medium high and deep intensity.

Aroma: Complex, with notes of fresh cherries, it reflects well its natural style and the portion of Carbonic maceration

Palate: Good attack, round, fresh, young and a long finish. With hints of red fruit and good balance. Whorty exponent of natural wine.
